Driver's licence and driving in Canada

WE DO NOT RECOMMEND THAT YOU BUY OR OPERATE A VEHICLE

unless you are familiar with the hazards of winter driving and have time and money to spend on maintenance.

Automobiles and auto insurance are very expensive, as are gasoline, auto products, parking on or off campus, and services.

If you need further information on how to obtain a driver's licence consult if you will be in province of Quebec:

www.saaq.gouv.qc.ca/en/index.html

or similar association in your province

The driving license is a very important document because it serves as primary photo identification (photo ID) in most situations.

The regulations for obtaining a driver's license vary from province to province; In general there is a written test, and a road test. For the written test you have to study a small book and write the test. For the road test you have to drive through a certain route accompanied by an examiner.

Try to apply for a driving license as soon as you can. You may need your driving license from Egypt (translated into English) to get credit for previous years of driving.
